

## THE WILD GOAT TRAIL

The hike through this trail needs to be started early in the morning during summertime, because it is a very long hike. The walk starts from the village of Brod at the 1400m altitude in the northwest of the village and continues for 2 hours of climbing up to the old passage and to the cross-border plain. The trail continues in the north until the Peak on 2400m. It approaches the white lake where you need to avoid the peak moving in the elevation that you are, straight left. The trail continues to Skarpa summit 2474m from where one can have a very good view of the most beautiful lakes (big lake and small lake or Golem Gol). The last stage of the trail is open and wide. During the summer the area provides an opportunity for seeing many different flowers and herbs, and also few sheep folks. Along the trail the visitors can see perfect flora and fauna and if lucky also see in a distance some wild animals, mostly Chamonix –wild goat and golden eagle.
