

Korita Trail

The trail starts from the center of the village of Rogachevo and passes through the upper part of the village, heading north to the locality "Kalugjer". From that point, the trail continues along a wide road through the forest and heading south and it merges with the road that goes from the village to the locality "Korita". At this point of merging there is a repeater. From there, the trail moves along a wide road with main direction towards north and climbs up to the locality "Rogachevski Korita". After going past "Rogachevski Korita", by a wide unpaved road we are heading north/northwest and passing along the Rogachevo Sheep Farms, we are moving along an isohypse at a height of 1600 meters and we reach the Mountaineering Hut "Ljuboten". Near the hut there are the Staro Selo Sheepfolds and "Villa Ljuboten".
